

Reinforcing Commitment to Achieve Sustainable Growth

Disclaimer

The Sustainability Report details the Company's plans, projections, strategies, and objectives. These are not statements of historical facts but rather indications about the future. It is important to note that there is no assurance that the results anticipated or indicated in the Company's forward-looking statements will be realized. Additionally, within the Sustainability Report, the terms "Company," "Bank Mega," and "We" refer to PT Bank Mega Tbk, a company engaged in banking activities.

Bank Mega succeeded in going through various dynamics and changes during 2023 with good growth. However, multiple learnings allow us to continue to hone our strategy. In the future, these changes will continue to colour our lives, and we must be agile in our work to create various service innovations through trusted technological reliability. Bank Mega will strengthen commitment and synergy with all stakeholders in achieving sustainable growth.

Message from President Director [D.1] [2-22]

..... “
Bank Mega has implemented socialization policy to enhance opportunities for sustainable finance financing by selecting financing process based on credit requirements that consider Environmental, Social, and Governance (ESG) aspects.
..... ”

Dear Stakeholders,

On behalf of the Board of Directors, I present the Bank Mega 2023 Sustainability Report, outlining our contributions to Indonesia's Sustainable Development Goals (SDGs). The report also reflects Bank Mega's commitment to implementing sustainable financial principles outlined in the Sustainable Financial Action Plan (RAKB).

Policy to Address Challenges

Bank Mega has implemented policies to respond to sustainability challenges and minimize associated risks effectively. Furthermore, in managing the adverse impacts of climate change, Bank Mega has increased its commitment to financing initiatives that prioritize environmental, social, and governance (ESG) considerations. These policies have been meticulously aligned with the sustainability values articulated in the Company's Vision and Mission.

Bank Mega has further intensified the distribution of financing in the Sustainable Business Activity Category (KKUB), emphasising the Micro, Small, and Medium Enterprises (MSMEs) sector. As part of the initiative to enhance the economic performance of MSMEs while upholding environmental sustainability, Bank Mega has undertaken educational programs highlighting the significance of environmental protection. To achieve these endeavours successfully, Bank Mega seeks support from various stakeholders, including businesses, communities, and the Government.

Bank Mega has established policies to address sustainability challenges and mitigate environmental risks. Furthermore, in addressing the adverse effects of climate change, the bank has identified sectors with elevated risks and calculated associated negative impacts. Our ongoing commitment involves continuous learning to comprehend ESG risks that may influence sustainability and future well-being.

Moreover, in alignment with the Environmental, Social, and Governance (ESG) aspect, Bank Mega has persistently advanced its digital transformation as a strategic response to the dynamic changes in the business system landscape. Most of our customers actively utilize various digital platforms, solidifying digitalization as an integral element of our sustainability framework. However, Bank Mega remains cognizant of the challenges associated with implementing digital-based technological innovations, particularly the heightened vulnerability of data security to cybercrime. In response to these challenges, Bank Mega has rigorously enforced the ISO 27001:2013 standard—an internationally recognized Information Security Management System (ISMS) guideline.

Sustainability Performance in 2023

Bank Mega has entrusted the Sustainable Finance Team with the responsibility of assessing the progress of sustainable finance implementation. The planning and execution of Sustainable Finance initiatives are spearheaded by the Strategic & Business Development Division (SBDV) in close collaboration with other operational units. The evaluation of sustainable finance implementation in 2023 encompasses economic, social, and environmental dimensions.

Throughout 2023, Bank Mega diligently executed the business strategies outlined in the Bank's Business Plan; however, the economic landscape remained challenging and uncertain, significantly impacting the Bank's strategic agenda. This circumstance necessitated several adjustments to ensure the continuity of business operations. The overall performance against the Bank's Business Plan (RBB) for 2023 did not yield optimal results, with Bank Mega reporting a profit before tax of Rp4.34 trillion and a profit after tax of Rp3.51 trillion. Despite these challenges, the current accomplishments serve as a foundation for propelling even greater success in the future.

From an environmental standpoint, Bank Mega consistently and sustainably pursues innovation to foster eco-friendly efficiencies. One significant initiative the bank has gradually undertaken is the transition in paper usage. Historically, the bank extensively utilized paper in almost all internal and external activities. Bank Mega is actively optimizing the shift from paper forms for account openings to digital applications. As of December 31, 2023, the M-Smile application recorded an impressive 86,820 digitally opened accounts. Drawing on this data, Bank Mega conducted simulations to estimate both the economic efficiency and the positive environmental impact. The reduction in paper forms and document copies usage amounted to approximately 312,552 sheets, underscoring the bank's preservation of 27 trees.

Bank Mega further improved paper efficiency by implementing digital-based credit card application submissions, utilizing tablets in direct sales, mobile banking applications, and online onboarding. Adopting e-statements and CC applications through digital platforms saved the consumption of approximately 9,959,638 sheets of paper from January to December 2023. This initiative is estimated to reduce the need to cut down 867 trees, contributing to the additional production of 381 tons of oxygen (O₂) and lowering carbon dioxide (CO₂) emissions by around 12.2 tons.

In 2023, Bank Mega reduced paper waste by 32% to 15.05 tons, compared to the previous year's 22.05 tons in 2022.

In addition to paper efficiency, Bank Mega continued its efficiency program for water usage in the Bank Mega Tower. All water used by Bank Mega is sourced from the Regional Drinking Water Company (PDAM), and in 2023, water usage at Bank Mega totalled 82,318 m³, marking a 3% decrease compared to the previous year's usage of 85,153 m³.

From a social perspective, Bank Mega also adds value to the community by implementing social and environmental responsibility (CSR) activities, including Mega Berbagi and Mega Peduli initiatives, as well as financial literacy and inclusion efforts.

Mega Berbagi represents a comprehensive social initiative focusing on education, public health, community empowerment, and disaster relief in Indonesia. The funds for these endeavours are generated from Mega Berbagi Savings customers who allocate a minimum of 1% of their received interest, complemented by an additional 1% provided through Bank Mega's CSR Program. Throughout 2023, Bank Mega disbursed Rp7.72 billion from the Mega Berbagi program to facilitate the construction of six schools for disaster victims in East Java, West Sumatra, and East Nusa Tenggara. In the Health pillar, Mega Berbagi Savings contributed to the construction of the Trans Medical Primary Clinic, aiming to enhance public health in the vicinity of Bank Mega's headquarters.

Donations from Mega Berbagi Savings were also directed towards enhancing the capacity of educators and motivating students in literacy, particularly in remote areas. In this context, Bank Mega collaborated with the CT ARSA Foundation to implement the Program Pelayanan Pendidikan dan Pengajaran (PIJAR), deploying volunteer teachers to remote areas, especially schools that had previously received assistance from Mega Berbagi, in East Nusa Tenggara, West Sumatra, and East Java.

Furthermore, in the course of 2023, via the Mega Peduli program, Bank Mega extended aid by distributing 20,000 staple food packages to people in need, supplying masks to all employees, and facilitating bamboo tree planting. This collaborative effort involved partnerships with PPATK, FKDKP, and the KEHATI foundation, resulting in a substantial Mega Peduli donation totalling Rp 3.09 billion.

Sustainable Finance Implementation

Bank Mega prioritizes specific industrial sector categories for credit financing, including the construction industry and agriculture, hunting, and forestry. These categories are selected based on economic sectors that can still grow positively amid uncertain economic conditions. However, credit financing from Bank Mega is exclusively extended to debtors meeting the stipulated requirements. Periodically, Bank Mega monitors and evaluates each borrower. Through these efforts, Bank Mega aims to foster the commitment of both existing and potential debtors to enhance their Environmental, Social, and Governance (ESG) performance. The approach serves as a mechanism to minimize and mitigate the negative impacts associated with the business activities of each industry.

All disbursements from Bank Mega will strictly align with the Sustainable Business Activity Category (KKUB), encompassing financing for environmentally sustainable business activities and support for Micro, Small, and Medium Enterprises (MSMEs). The green financing portfolio constitutes 99.8%, while MSME financing comprises 0.2%. In 2023, the total lending within the KKUB category reached Rp24.9 trillion, marking a substantial 36.4% increase compared to the Rp18.25 trillion recorded in 2022.

Risk Management in Sustainable Finance Implementation

Target Achievement Strategy Bank Mega has implemented a thorough risk management framework for sustainable finance, encompassing credit, operational, liquidity, and market risks. To address these risks, we adopt a meticulous approach, conducting Environmental, Social, and Governance (ESG) risk assessments, adjusting credit disbursements with due consideration to ESG factors, and analysing the risk profiles of borrowers.

Utilization of Sustainable Finance Business Opportunities and Prospects

In addition to risk management, Bank Mega has strategically mapped out business opportunities and prospects. Recognizing the pivotal role of the banking industry in supporting the national economy and achieving greenhouse gas (GHG) emission reduction targets, we perceive this as an opportunity to deliver added value to all stakeholders.

External Situation

The surge in environmentally friendly industries and technological advancements has presented lucrative business prospects for banks to foster the growth of these enterprises. Simultaneously, the rising number of Micro, Small, and Medium Enterprises (MSMEs) domestically and internationally represents a potential business avenue for us. Bank Mega is steadfast in its commitment to leveraging these opportunities and elevating the standing of MSMEs through diverse international transaction services.

Closing Statement

We extend our heartfelt gratitude and highest appreciation to all stakeholders for the unwavering support, collaboration, and trust bestowed upon Bank Mega throughout 2023. Each form of support received has served as a catalyst, propelling us to enhance the attainment of sustainable financial performance. Bank Mega remains dedicated to upholding a harmonious equilibrium in managing environmental, social, and governance (ESG) performance, recognizing its significance for present and future well-being.

Company Profile [C.1][2-1]

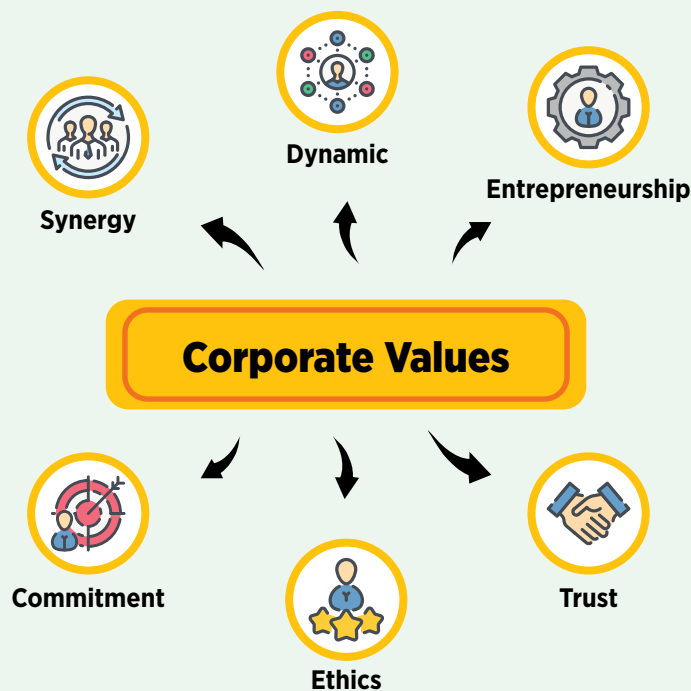

Vision

To stand as a source of national pride

Mission

Cultivate positive customer relationships by delivering innovative banking services and harnessing synergies within integrated ecosystems, professional human resources and the highest organizational performance capabilities aimed at providing significant added value to all stakeholders.

Promoting a Culture of Sustainability through Activities [F.1]

In an effort to build a culture of sustainability, Bank Mega continuously provides corporate culture outreach to increase internal capacity. This socialization is carried out by providing induction material to new employees regarding the corporate profile and strengthening the internalization of Corporate Culture around sustainability aspects to all employees.

Through outreach, it is hoped that all employees can understand and implement a culture of sustainability and environmentally friendly behavior in all office network of Bank Mega. This socialization is carried out consistently over a certain period by the Corporate Culture & Change Management Specialist (CCCM), who is part of the Corporate Affairs Work Unit.

Update HC System (adding new modules) Support HC work processes efficiency for optimized and paperless HR services.	Operating costs, human resources, and paper

Bank Mega's Efforts in Environmental Conservation

Bank Mega supports environmental sustainability through a variety of efforts, including:

- a. Improving energy use efficiency.
- b. Reducing emissions.
- c. Minimizing paper waste.
- d. Advocating for the reduction of operational vehicle usage.
- e. Providing official vehicles meeting emission standard.
- f. Digitizing processes to decrease paper consumption.
- g. Regulating air conditioning (AC) usage.
- h. Optimizing the cessation of the use of glass and bottled drinking water (AMDK) in the Bank Mega environment to reduce plastic waste, according to the Service Memo (No.MD.1638/PRFS/19).
- i. Implementing a printer quota system, piloted at the Head Office.

[F.5]

Energy Usage

Energy sources play a crucial role in supporting Bank Mega's operational activities. The bank utilizes electricity and fuels such as diesel, oil, and gasoline. Additionally, generators are employed as backup during power outages to ensure uninterrupted banking transactions and zero downtime.

In 2023, the Bank issued the amount of Rp14.18 billion for electricity costs. This number has experienced an increase of 34% compared to 2022 amounting to Rp10.57 billion. However, Bank Mega will continue to strive for energy efficiency. [F.7]

Electric Energy Consumption Levels and Intensity [F.6] [302-3]

Uraian	2023	2022	2021
Total energy consumption (MWh)	1,244.4	1,184.9	1,053.1

Description:

*The Data derives from Bank Mega Head Office

** The Data derives from all Bank Mega branches (KC, KCP, KK)

*** The Data derives from all Bank Mega National Regions (Operational Vehicles and Online Taxi)

Generated Greenhouse Gas (GHG) Emissions [305-1] [305-5]

During 2023, Bank Mega has calculated emissions coverage one which comes from fuel used for official vehicles, it is 967,476 litres, an increase of 15% if compared to 2022, which is 844,389 litres. Meanwhile, using online taxis by using the same calculation as for official vehicles if converted to a fuel price of 180,411 litres, up 16% compared to 2022 of 155,300 litres.

Based on the calculation of scope one emissions, the amount produced is 2,698 tons of CO₂. This number experienced an increase of 349 tons of CO₂ compared with 2022, it will be 2,349 tons of CO₂. Calculation of the number of emissions

scope one is carried out using the emissions conversion method that is, 1 litre of fuel consumption will produce 2.35 kg of emissions CO₂. [F.11]

Furthermore, Bank Mega has made several efforts to reduce the amount of emissions produced, including: [F.12]

1. Use fuel with high-octane RON 95 for Operational vehicles for Directors, Commissioners & Regional Head to reduce carbon emissions.
2. Conduct Emission Tests for all official vehicles operational & current at Head & Branch Offices Jabodetabek has passed the motor vehicle emissions test.

The application of digital technology is one of Bank Mega's efforts to reduce the carbon footprint in all operational activities. This also impacts customers who do not need transportation to the bank and can carry out various transactions anytime and anywhere.

[305-5] [FS8]

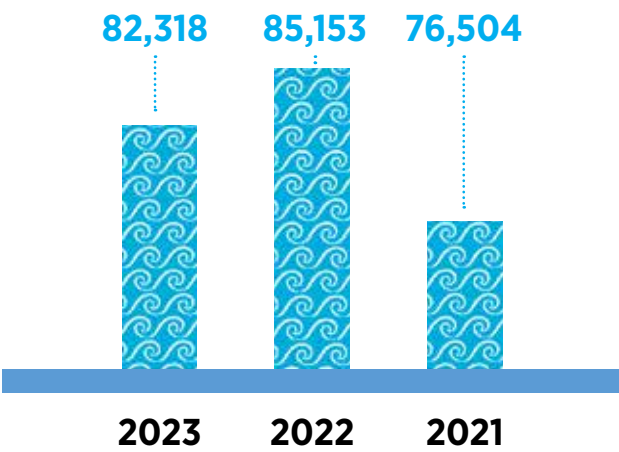

Water Use [F.8] [303-1]

Water is essential for Bank Mega's operations and environmental upkeep at the head office and branches. All water consumption is sourced from the Regional Drinking Water Company (PDAM). In 2023, Head Office water usage totaled 82,318 m³, marking a 3% decrease from the previous year's consumption of 85,153 m³.

As an effort to make water usage efficient, Bank Mega has made carry out periodic checks and repairs on channels water thereby minimizing the occurrence of water leaks.

Total Water Usage (m³)

Note: data comes from Bank Mega Tower

Waste Management

The predominant waste resulting from Bank Mega’s operational activities is paper waste. To minimize this, Bank Mega actively reduces paper waste by outsourcing it to a third party holding a waste management license. [F.14]

Furthermore, Bank Mega through the Property & Facility Services (PRFS) work unit monitors efforts to reduce paper waste so that it can reach maximum efficiency limits. In 2023, the generated paper waste amounted to 15.05 tons, reflecting a 32% reduction from the 2022 figure of 22.05 tons. [2-25][306-1][306-2] [306-3]

Total Waste Produced in the Form of Paper (Ton) [F.13]

Bank Mega has transformed into the era of digitalization by implementing the latest technology-based services. This has a significant impact on reducing paper usage. Furthermore, Bank Mega consistently provides education regarding the use of several technology-based services, including:

- M-Smile
- E-Learning
- Mobile onboarding
- Card Initiation System
- Web Policy & Procedure Management System
- Content Management
- E-Doc
- Enterprise Data Warehouse
- MEMo

Until the end of the reporting period, **86,820** accounts were opened via the M-Smile application. This also has a positive impact by converting from using paper forms to open accounts to using digital applications. Apart from that, it also impacts reducing the amount of paper by **312,552** sheets, which can save costs of **Rp32,088,672** and reflected the Bank had saved **27** trees.

Bank Mega has increased the efficiency of using magazines and newspapers in Regional Offices, Branch Offices and Sub-Branch Offices. All news can be accessed through digital newspapers and magazines. This effort is a step taken by Bank Mega to follow technological developments and support sustainability. Until the end of the reporting period, Bank Mega had reduced the cost of using magazines and newspapers by Rp177.4 million, a decrease of Rp69.5 million, compared to 2022 of Rp246.9 million.

Biodiversity Preservation

All locations and processes of Bank Mega's operational activities are not directly related to high biodiversity or are located close to protected areas. However, Bank Mega continues to strive to contribute to preserving biodiversity to create a sustainable life. [F.9]

Bamboo Planting Activities in Ngargoretno Village, Magelang Regency

Bank Mega actively supports the Bamboo Planting program in the Bukit Manoreh Geotourism Area, Ngargoretno Village, Magelang Regency, initiated by the KEHATI Foundation. The program aims to enhance educational tourism attractions, preserve endangered bamboo species, and establish a bamboo species learning park. Committed to this initiative from 2022 to 2027, Bank Mega provides annual financial assistance of Rp14,500,000 and actively participates in planting 100 bamboo seedlings each year. [F.4] [F.10]

Caring for Our Employees and Communities

Bank Mega fosters a conducive environment for all employees to pursue a fulfilling and enduring career path. The bank is dedicated to cultivating an inclusive and equitable workplace.

Bank Mega Employee [2-7] [405-1] [406-1]

“

In 2023, Bank Mega received no reports of complaints regarding violations of employment practices, including acts of discrimination against ethnicity, religion, gender, race or class.

”

Bank Mega's business sustainability is strengthened by a team of exceptional, professional, and high-integrity human resources (HR). The Bank also grants employees the freedom to participate in training, education, and performance assessments according to their individual needs and talents.

Moreover, the Company consistently upholds human rights by ensuring equal treatment for all employees. In line with Decree No. 083/DIRBM/21 on Employee Recruitment and Selection, the principle of equal opportunity has been integrated since the recruitment stage. This principle guarantees that all prospective employees have an equal chance to secure a position based on their competence, capacity, and work performance. It serves as our guiding

principle in selecting the most qualified individuals to join Bank Mega. [F.18]

By the end of 2023, Bank Mega had 6,244 employees, consisting of 2,853 male employees and 3,391 female employees. All Bank Mega employees are full-time employees and there are no part-time employees. As a manifestation of our commitment in upholding equality and diversity, there are 3,391 female employees, which is equivalent to 54.31% of Bank Mega's total employees, and 2 women or 25% who occupy positions as Directors. Overall, the ratio between male and female employees is quite balanced with the majority being in the productive age range of 25 to 39 years old.

Outsourced Workers of Bank Mega

Some outsourcers at our place are not Bank Mega employees. They are vendor/supplier workers who work based on an agreed contract. However, this report needs to include the number of other outsourced workers who are not Bank Mega employees, considering the dynamic number of movements between them. [2-8]

Recruitment Process and New Employees [401-1]

The recruitment process for Bank Mega employees is carried out by Circular Letter number 267/DIRBM-PMIC/23, which is by Government regulations, including minimum working age and working time, and does not involve child labor and forced labor. [F.19]

In 2023, Bank Mega will accept 2,202 new employees consisting of 905 male employees and 1,297 female employees to meet the needs of existing employees. The number of employees needed aligns with the decreasing employee turnover rate.

Employee Welfare

Employee Benefits [2-19]

Bank Mega fully complies with laws and regulations on Regional and Provincial Minimum Wages (UMR and UMP), maintaining a 1:1 ratio. The bank guarantees that all employees (100%) receive compensation exceeding the mandated minimum wage. Remuneration amounts are determined based on work achievement, position level, and performance, with no discrimination related to gender or other background aspects. The Human Resources Committee governs the remuneration policy per the Decree No. 062/DIRBM/23 on the Human Resources Committee. [F.20]

All permanent and outsourced employees receive holiday allowances, job allowances, attendance incentives, retirement benefits for employees approaching retirement age, health insurance, and annual facility compensation. [401-2]

Maternity Leave [401-3]

Bank Mega has committed to provide maternity leave for both female and male employees. In line with this commitment, Bank Mega provides maternity leave rights for 3 months for female employees and male employees whose wives give birth will be given special leave for 2 days.

In 2023 there were 226 female employees and 113 male employees who took maternity leave and have since returned to work in their original positions. The leave policy is stipulated in Article 40 of the 2023-2025 Company Regulations.

Decent and Safe Working Environment [F.21]

Bank Mega has implemented Occupational Health and Safety (OHS) Management policy in every work unit. This policy is part of Bank Mega's endeavors to establish a healthy, decent, and safe working environment for all employees. All Bank Mega employees and individuals entering the Bank's office area are required to adhere to the policy. [403-8]

The OHS management system has been integrated into the Bank's management system in accordance with prevailing laws and regulations. All employees are authorized to report or consult on OHS implementation, development, and evaluation with the Property & Facility Services (PRFS) Work Unit team and their respective unit heads. The obtained evaluation results will be used as material for improvement and adjusted to meet existing needs. [403-1][403-4]

The implementation of OHS activities carried out by Bank Mega includes: [403-3][403-5][403-6][403-7][403-9][403-10]

- Organized socialization programs and disaster emergency response simulations aimed at training employee preparedness and ensuring the effectiveness of the Bank's Business Continuity Management (BCM).
- Drawing from the experience gained during the COVID-19 pandemic, the Bank has implemented mitigations to address emergency conditions including the Work from Home System, Split Operations at alternate sites, and utilizing applications available at Business Continuity Plan (BCP) sites.

- Conducted tests to assess the readiness of IT infrastructure and networks based on the Disaster Recovery Plan (DRP) coordinated by the Recovery Team.
- Conduct a Risk Campaign through email blasts outlining emergency responses to risks arising from external factors that may impact the work environment. Examples include Flood Alert Due to Extreme Rain (January 2023), Revocation of Pandemic Status in Indonesia (July 2023), Monkeypox Alert (November 2023), and Flood Alert Due to Extreme Rain (December 2023).
- Provided health service facilities, including first aid services (P3K), health insurance facilities appointed by the company, and mandatory BPJS insurance for employees and their families.
- Conducted free health checks such as IVA tests, blood pressure, and blood sugar measurements, organized by the Bank in collaboration with third parties.
- Conducted general Medical Check-ups for certain employees, organized by Mega General Insurance.
- Held a series of health webinars to increase employee awareness about maintaining good health.
- Socialized the implementation of health protocols through email blasts, guidebooks on the Bank's internal website, and reminder notices via various communication channels during specific hours.

Bank Mega provides health insurance facilities for employees so that if employees require a health examination, they can use the health insurance facility according to the provisions. During 2023, no occupational diseases (PAK) will be caused by Bank Mega's operational activities. Bank Mega, through the Mega Berbagi program, collaborates with Pratama Trans Medical Clinic and BPJS to provide medical services for Head Office employees and also the community around the Bank Mega Tower area. [403-6] [403-10]

Training, Development, and Technology Engagement

All Bank Mega employees have equal opportunities to undergo training and development. Training and development are provided to employees to increase competency through various methods, both offline and online, as well as e-learning, the implementation of which is accessed through digital-based technology. As part of digital transformation and improving learning culture, e-learning platforms encourage employee participation in accessing literacy and knowledge relevant to their job functions. Training and development are under the management of the Director of Compliance & Human Capital. [3-3]

One of the efforts to introduce Sustainable Finance Action is also carried out through the e-learning platform so that every new employee must follow the material. Apart from that, the availability of new modules in the e-learning platform can be used as an enhancement carried out continuously and sustainably.

Employee Training and Skill Development [F.22]

Bank Mega supports improving the quality of human resources by providing opportunities and freedom for all employees to develop their abilities and competencies through continuous training and providing insight. This activity was organized internally by Bank Mega and in collaboration with external organizers.

During 2023, Bank Mega implemented more than 1,300 training activity sessions, equivalent to 10.3 person-days for each participant, with a participation rate reaching 99.33% of active employees. In line with the digitalization process, learning through e-learning is increasingly optimized so that training and knowledge sharing can be achieved more widely for all employees in all branches across Indonesia. Until December 2023, Bank Mega has been running e-learning and attended by more than 40 thousand participants (excluding online tests).

Sustainable Finance Competency Development [E.2]

In an effort to enhance digital-based employee competencies, Bank Mega has implemented an e-learning module on Sustainable Financial Action Introduction. This module offers convenient and efficient access to insight development on Sustainable Financial Action for all employees, eliminating restrictions of time and place. However, Bank Mega remains committed to advancing the e-learning module in alignment with the evolving environmental, social, and governance (ESG) aspects also stakeholders' needs. [FS4]

Bank Mega conducted a sustainability finance awareness refresher for all employees through an e-learning platform in 2023. Additionally, the bank incorporated Sustainable Finance Action Introduction material into the Development Program curriculum, an acceleration program designed for managerial-level employee candidates.

Realization of Sustainable Financial Literacy in 2023 [404-1] [404-2] [FS4]

Employee Appraisal

Bank Mega periodically conducts performance assessments of all employees. Performance appraisal measures work results and achievements against set targets, determines career aspirations, and measures job interests and needs. In 2023, all employees who comply with the provisions have done a performance review. [404-3]

Performance assessment is carried out based on the provisions stated in Decree Number 085/DIRBM/21 concerning Employee Performance Assessment. Referring to Decree Number 079/DIRBM-HCRO/21 concerning Employee Promotion, competent employees can get promotions to move up the level using the promotion mechanism for promotion. During 2023, 16.65% of employees will receive promotions.

Digitalization and Innovation of Product and/or Service Development [F.26] [3-3]

Bank Mega consistently innovates in developing digital products and/or services to uphold high-quality standards and provide equitable services to all customers and partners. Among the innovations implemented in 2023, the M-Smile application has been enhanced with QRIS TUNTAS (Transfer,

Cash Transfer, and Cash Deposit) functionality at Bank Mega ATMs. This innovation simplifies cash withdrawal at ATMs and merchants, enables transfers to all banks, and facilitates cash deposits at merchants by simply scanning the QRIS code through the mobile banking application.

Bank Mega gives responsibility for carrying out development and/or service innovations to the Digital Transformation Taskforce Team, which the President Director directly supervises. All Innovation Products related to M-Smile Mobile Banking refer to Letter from Bank Indonesia No. 22/125/DKSP/Srt/B dated 19 February 2020 concerning Approval for the Development of PT Bank Mega, Tbk's Proprietary Channel Mega Smart Mobile (M-Smile). Bank Mega hopes that the presence of innovative products can make it easier for customers to carry out various transactions more easily and quickly. Going forward, Bank Mega will continue to make other innovations in M-Smile Mobile Banking, Corporate Internet Banking and other digital facilities that can support the needs of Bank Mega customers.

Throughout 2023, the bank consistently advanced its information technology to enhance services for customers, encompassing the following initiatives:

1. Implementing an online credit card application for digital credit cards enables customers to conduct immediate online transactions without waiting for the physical credit card to be delivered.
2. The introduction of the Loan on Card feature allows customers to request fund disbursement of up to 50% of the credit card limit, accessible at any time through a fast and practical process.
3. Ongoing development to augment existing features and services, including:

- a) Enhancement of Payment Services with improvements to digital money top-ups, aeroplane ticket payments, insurance transactions, and motor vehicle tax settlements.
 - b) Strengthening mobile banking security comprehensively to ensure application stability, guard against cybercrime, and secure customer data.
 - c) Introducing loyalty point features in MPC Point provides a secure and convenient way to view credit card data.
4. Development of the National Standard Open API Payment System (SNAP) aligned with industry standards established by regulators.
 5. Advancement of branch services to align with the digitalization trends in banking, specifically through implementing the Branch Delivery System Application.

Bank Mega will continue introducing more innovations in Mobile Banking M-Smile, Corporate Internet Banking, and other digital facilities to meet the evolving needs of Bank Mega customers.

Bank Mega Digital Credit Card

Bank Mega has introduced the Digital Credit Card, representing a progressive development from conventional credit cards aimed at enhancing the efficiency and effectiveness of credit card operations. The development of the Digital Credit Card aligns with Bank Mega's commitment to supporting Sustainable Development Goals (SDGs). Digital credit card utilisation contributes to reducing carbon emissions associated with the card printing process and minimizes paper usage in administrative processes conducted digitally. Bank Mega became one of the first private banks to implement QR Code Indonesia Standard (QRIS) in several ASEAN countries such as Thailand, Malaysia, and Singapore for cross-border QRIS Payment Services.

Customer Data Privacy and Security [3-3] [418-1]

Socialization of Law No.27 of 2022 Concerning Personal Data Protection (UU PDP)

The rapid advancement of technology has profoundly impacted the banking sector. Presently, customers enjoy the convenience of digital transaction activities. However, digitalization also introduces negative aspects, notably the surge in technological crimes, underscoring the utmost importance of ensuring customer data security.

In a continual effort to mitigate risks, Bank Mega has implemented a series of internal policies, as articulated in various vital documents. These include Decree Number SK: 078/DIRBM/23 on Consumer and Community Protection of PT Bank Mega, Tbk.; Decree Number SK: 090/DIRBM/23 on Information Security Policy; Decree Number SK: 114/DIRBM/23 on Information Technology & Cyber Risk Management; Circular Letter Number SE: 230/DIRBM-

PMOC/21 on Self-Assessment of Consumer Education and Protection; Circular Letter Number SE: 137/DIRBM-PMOC/22 regarding Protection of Assets, Privacy, and Consumer Data in the Framework of Consumer and Community Protection; and Circular Number SE: 245/DIRBM-PMIC/23 on Cyber Resilience and Security.

The complete policy reflects Bank Mega's unwavering commitment to safeguarding the confidentiality and security of customer data. Bank Mega assures that only authorized employees or authorities with a proper warrant, as stipulated in Law Number 10 Year 1998 Article 40 Paragraph 1 concerning a bank's obligation to maintain customer information confidentiality and Law Number 27 Year 2022 on Personal Data Protection, can access customer data.

Providing the Best Service to Customers

Management Approach [3-3]

Customer service is critical to Bank Mega's continued growth. Bank Mega continues to strive to provide the best service to customers in a timely and professional manner, as well as implementing a customer complaint mechanism through branch offices and Mega Call to always handle all input, suggestions and complaints by applying the principles of accessibility, independence, fairness, efficiency and effectiveness.

Services Provided

Bank Mega consistently upholds high-quality standards in delivering uniform products and services to all customers and partners. Our ongoing commitment is to provide leading services that meet and exceed customer needs

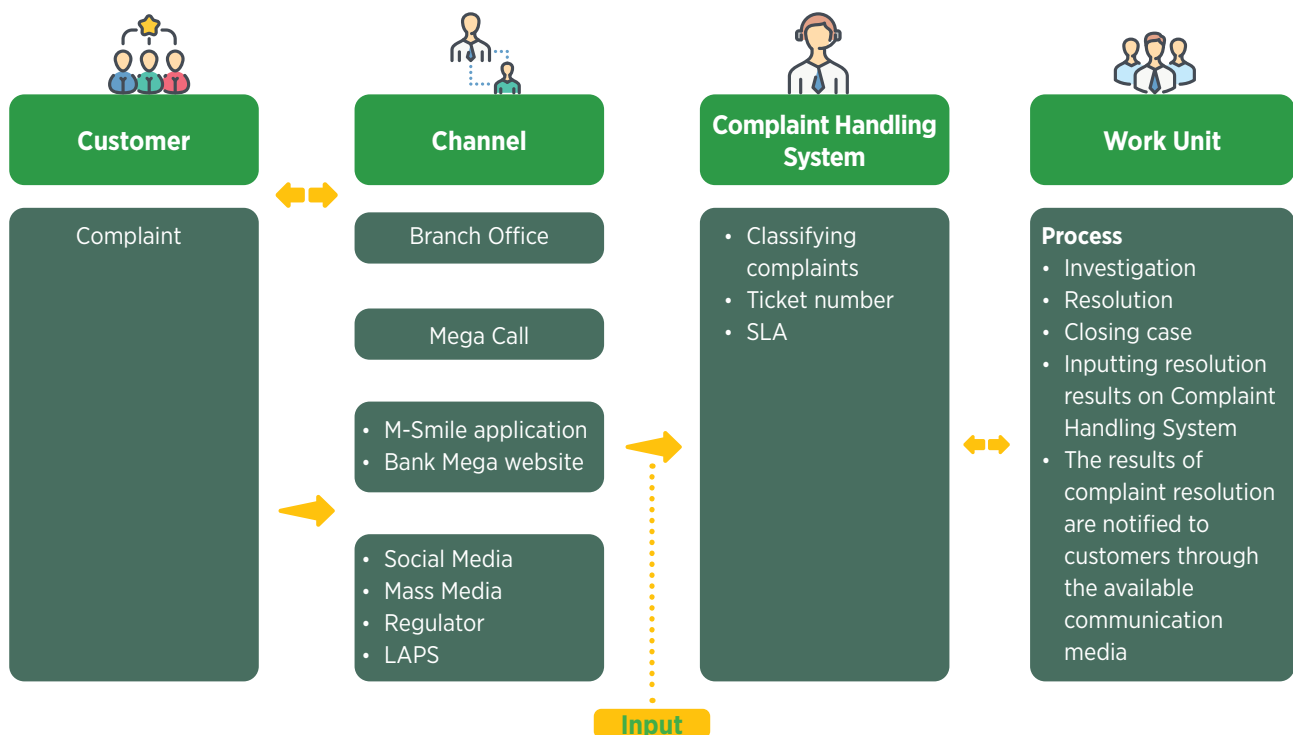

and expectations, ensuring a positive and efficient banking experience. As part of Bank Mega's initiatives to offer cutting-edge services, we provide interbank transfer services through BI Fast with an unconditional fee of Rp0. [F.17]

In our ongoing pursuit of delivering exceptional service in customer transactions, we have expanded our service offerings by increasing the number of payment and purchase billers accessible through mobile banking, ATMs, and Internet banking. Additionally, Bank Mega also increases the ease of carrying out buying-selling transactions and ordering wealth products in the form of Mutual Funds and Bonds via mobile banking. We aim to provide customers with a seamless and enjoyable banking transaction experience, all within easy reach.

Handling and Resolution Mechanisms Customer Complaints [F.16] [F.24]

Bank Mega welcomes complaints from customers, communities, and other stakeholders regarding any issues related to our products and/or services, as well as environmental and social aspects. We offer various channels for receiving complaints, by Branch Offices, Mega Call, the customer complaint form on our website, social media, and the complaint form in the M-Smile application. All incoming complaints will be diligently addressed by the relevant units, aligning with the nature of the complaint submitted by the customer.

In 2023, Customer Care recorded 6,554 complaints regarding Bank Mega products and services. This number has increased by 6% compared to the previous year of 6,172 reports. The types of complaints most frequently received are regarding Credit Cards and Fund Transfers. However, all complaints (100%) have been appropriately followed up by Bank Mega.

Complaints from customers, the public, and other stakeholders can be submitted through:

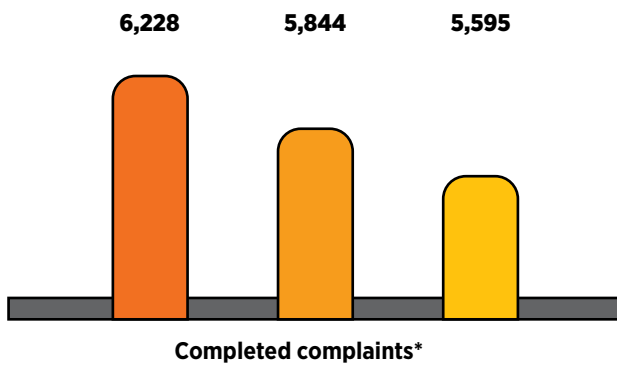

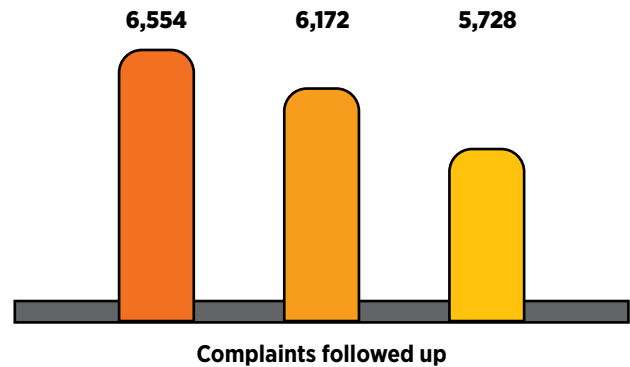

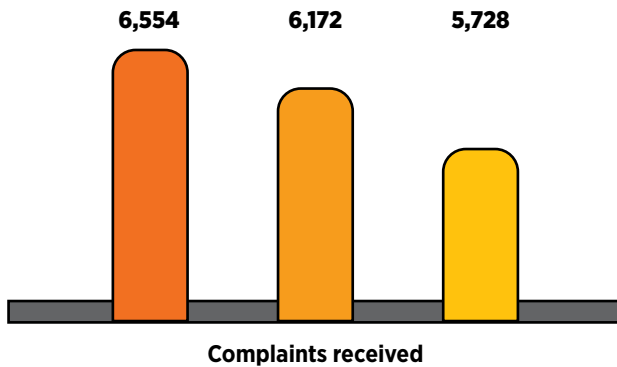

- Customer Service in all Bank Mega branch offices
- Mega Call with 08041500010 or +6221 2960 1600 (from abroad)
- Customer Complaint Form accessible via the www.bankmega.com
- Social Media:
 - Instagram : @bankmegaid
 - Facebook : BankMegaID
 - X : @BankMegaID
 - Youtube : Bank Mega Indonesia
 - TikTok : @bankmega
- Complaint Form that can be accessed through M-Smile Application

Note: Data as of 31 December 2023

Product and Service Safety Evaluation ^[F.27]

Bank Mega upholds a stringent security evaluation process and rigorous supervision for all products and services offered to customers before launch. This meticulous evaluation involves collaboration between Bank Mega and regulatory bodies, including Bank Indonesia and the Financial Services Authority. The assessment procedure adheres to legal frameworks, notably Law Number 10 of 1998, amending Law Number 7 of 1992 on Banking. Additionally, the evaluation aligns with Financial Services Authority regulations, specifically Regulation Number 6/POJK.07/2022 on Consumer and Community Protection in the Financial Services Sector and Regulation Number 11/POJK.03/2022 on the Implementation of Information Technology by Commercial Banks.

Bank Mega maintains a steadfast commitment to enhancing the security of its products and services by reinforcing its information technology systems. Additionally, the bank consistently disseminates information and conducts educational initiatives on transaction security and preventing technology-related crimes. Consequently, throughout 2023, there were no product or service recalls after their launch, and no financial fines or legal sanctions were incurred due to alleged non-compliance in providing information about banking products and services. ^[F.29]

Bank Mega consistently upholds its dedication to product and service security, a commitment integral to preserving customer trust. Demonstrating the success of this commitment, in 2023, Bank Mega achieved a position within the top 5 in customer satisfaction levels, as measured by the Satisfaction Loyalty Engagement (SLE) Index 2023 (KBMI III) conducted by Market Research Indonesia (MRI).

Customer Satisfaction Survey [F.30]

In 2023, customer satisfaction measurements will be done according to specific events and needs. However, in 2024, Bank Mega will routinely conduct customer satisfaction surveys at all service points. Bank Mega does this to improve

the overall customer experience. Apart from that, every time a customer completes a transaction, they will be asked to provide feedback on their experience to ensure they get the best experience. Therefore, the customer satisfaction survey results will be reported in the next reporting period.

Financial Inclusion and Literacy [FS13] [FS14] [FS16]

Management Approach [3-3]

Bank Mega has followed up to POJK No. 3 of 2023 concerning Increasing Literacy and Financial Inclusion in the Financial Services Sector through education and financial inclusion programs. Apart from complying with authority regulations, Bank Mega also carries out these activities to increase public understanding, especially regarding financial management, introducing bank banking products, and inviting people to use financial services, especially in the banking sector. With people who understand more about financial literacy are expected to be able to help in daily financial management to improve their welfare.

The Corporate Affairs unit carries out Education and inclusion activities, supervised by the Director of Compliance and Human Capital, who periodically reviews performance achievements and achieves program targets.

“Ayo ke Bank” Program and “Edukasi Nasabah” Program

Through the “Ayo ke Bank” program, Bank Mega will introduce the world of banking and provide education related to financial management to school aged children. In 2023, the “Ayo ke Bank” program will be implemented at Al Kautsar Middle School and will be attended by 50 school age children.

Furthermore, the “Edukasi Nasabah” program aims to educate customers on improving their ability to manage finances and increasing awareness of potential financial fraud.

At the end of the year, Bank Mega and other LJKs jointly implemented the Joint Consumer Protection Education Movement - Smart Consumers, Transaction Sensitive, which Bank Indonesia initiated. This campaign will be implemented online from 22 December 2023 to 3 January 2024. All “Edukasi Nasabah” Programs are carried out through digital campaigns on Bank Mega’s social media platforms, which 369,670 netizens have followed.

Bank Mega also conducts online financial inclusion “Pekan QRIS Nasional” campaign program via the M-Smile mobile banking application. Apart from that, Bank Mega has also implemented the “Bulan Inklusi Keuangan” Program offline at Meriah Bareng Mega events in various cities throughout Indonesia and campaigns through Bank Mega’s digital social media channels.

Corporate Social Responsibility (CSR) Activities [F.23][F.25]

Bank Mega provides added value to the community through implementing corporate social responsibility (CSR) activities, including "Mega Berbagi" and "Mega Peduli" activities, and financial literacy and inclusion.

Since 2008, Bank Mega has improved the infrastructure of 78 schools spread across Indonesia with a realized cost of Rp114.93 billion.

Mega Berbagi [F.57]

Based on the Mega Berbagi policy, they are stated in SE No.180/DIRBM-PMIC/23 concerning Mega Berbagi. Mega Berbagi Savings is a savings product intended for savings activities and assisting customers in distributing aid for social activities. Social activity is donations designed for Education, Public Health, Community Empowerment and Disaster activities in Indonesia. Donation funds will be obtained from the interest allowance customers should receive, at least 1% and added by Bank Mega by 1%.

Bank Mega collaborates with CT ARSA to execute the Program Pelayanan Pendidikan dan Pengajaran (PIJAR), which is aimed at enhancing the capabilities of volunteer teachers. After undergoing specialized training, these volunteer teachers will be assigned to various remote areas in Indonesia for one year. The initiative reflects our commitment to elevating the quality of education in Indonesia.

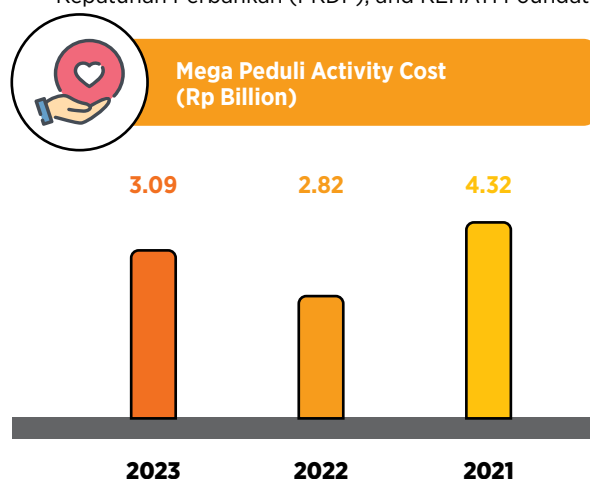

In addition to offering basic knowledge, we extend financial literacy education to students to foster sound financial management knowledge. Simultaneously, we contribute to the improvement of school building infrastructure. Bank Mega firmly believes that a comfortable learning environment and proper infrastructure play crucial roles in enhancing students' overall quality of education.

The oversight of the Mega Berbagi program falls under the purview of the Mega Berbagi Committee, comprising diverse stakeholders, including customer representatives. The Committee is steadfast in its commitment to ensuring that the program is executed in alignment with the principles of accountability and transparency.

Mega Peduli

Bank Mega remains steadfast in its commitment to actively contribute to the nation's welfare by diligently pursuing the realization of Sustainable Development Goals (SDGs), specifically focusing on fostering a healthy and prosperous life. In 2023, Bank Mega undertook various impactful activities as part of the Mega Peduli program, including:

1. Distribute 20,000 basic food packages to people in need around the office ahead of Eid al-Fitr.
2. Distribution of masks to employees in the context of Bank Mega's 54th anniversary.
3. Plant bamboo trees with Pusat Pelaporan Transaksi Keuangan (PPATK), Forum Komunikasi Direktur Kepatuhan Perbankan (FKDP), and KEHATI Foundation.

Implementing Responsible Business Practices and Creating a Sustainable Economy

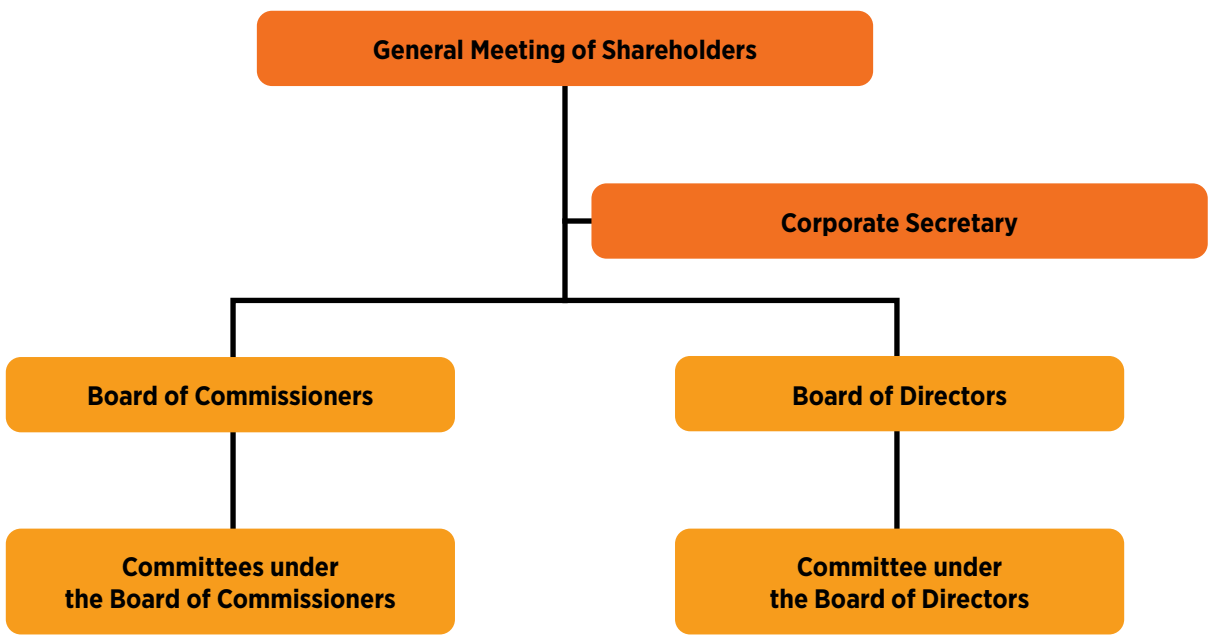

Sustainability Governance Structure [E.1] [2-9]

In compliance with the Limited Liability Company Law (UU), Bank Mega's governance structure comprises the General Meeting of Shareholders (GMS) as the highest organ, the Board of Directors managing the company, and the Board of Commissioners overseeing its activities. Furthermore, guided by the Remuneration and Nomination Committee's recommendations, shareholders possess the authority to determine remuneration and nominations for appointing the Board of Directors and Board of Commissioners. These decisions are later ratified at the GMS. The 2023 Annual Report provides detailed information on the GMS, the Board of Directors, the Board of Commissioners, their functions, the nomination and selection process, the remuneration ratio and performance evaluation. [2-9][2-10][2-11] [2-18] [2-20] [2-21]

Bank Mega has implemented good governance in accordance with:

- Articles of Association of PT Bank Mega Tbk No. 08 of 2023.
- Financial Services Authority Regulation no. 17 of 2023 concerning implementing Governance for Banks for Commercial Banks.
- Circular Letter of the Financial Services Authority No.13/SEOJK.03/2017 on the Implementation of Governance for Commercial Banks.

At the conclusion of each year, Bank Mega compiles and publishes a governance implementation report as a vital component of its commitment to information openness and transparency. [2-15][2-27]

Sustainable Finance Team [2-12] [2-13] [2-14]

In a dedicated effort to implement sustainable finance practices, Bank Mega, through Board of Directors Decree No. 053/DIRBM/19 dated June 20, 2019, delineating the Membership Structure of the “Sustainable Finance Team”, has established a team comprising several working units. The Sustainable Finance Team is tasked with various responsibilities, including:

- Drafting a report on the Work Plan and Budget (RAKB).
- Compiling a sustainability report.
- Regularly reporting sustainability performance to the Compliance & Human Capital Director. The Compliance & Human Capital Director is responsible for reporting to the President Director for a comprehensive review, evaluation, and approval of the sustainability report's content.

Implementation of Sustainable Finance Policy ^[FS1]

By the end of 2023, Bank Mega successfully integrated the business criteria outlined in the sustainable finance policy. These criteria enable the bank to assess business credit eligibility, encompassing factors like document completeness, which includes certifications for specific sectors. Bank Mega also has other policies in place such as:

- Anti-fraud policy.
- Anti-corruption policy.

- Anti-Money Laundering Policy, Funding Prevention Terrorism, and Prevention of Weapons Proliferation Funding Mass Destruction (APU, PPT & PPPSPM).

This policy serves as a tool to ensure the proper implementation of good governance and is accessible on the Company's website.

Sustainable Finance Risk Identification ^[FS2]

Bank Mega has identified risks that pose challenges in implementing sustainable finance. To address each risk, the bank employs a prudent approach through four pillars, namely:

Active Supervision of the Board of Commissioners and Directors.

Internal Control System.

Suficiency of Policies, Procedures, and Limit Setting.

Suficiency of Risk Identification, Measurement, Monitoring and Control Processes.

Risk Management Information System.

Risk Management Procedures on Sustainable Finance Implementation [E.3] [FS2] [FS9]

Sustainable finance in accordance with risk management policy procedures. In addition, the process of identifying, measuring, monitoring and controlling credit risk covering the Environmental, Social and Governance (ESG) impacts of the debtor's business activities is also carried out.

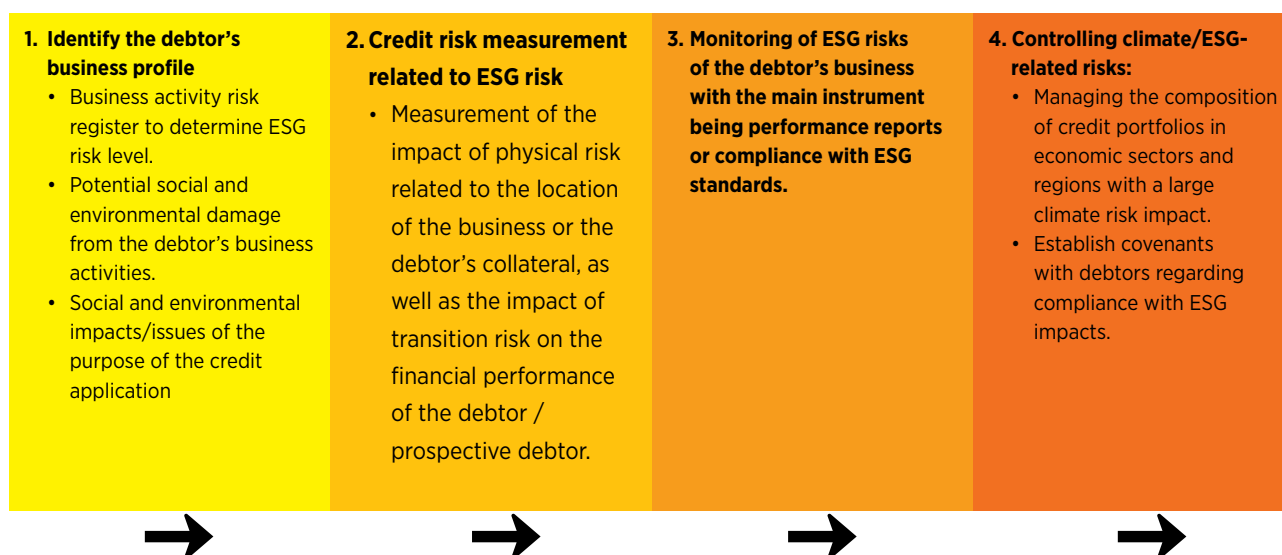

The risk management process also involves assessing the impact of climate risks, such as physical and transition risks, on the debtor's financial performance. Physical risks encompass those resulting from severe natural disasters (acute physical risks) and those gradually affected by long-term changes in climate patterns, such as rising temperatures

and sea levels (chronic physical risks). Transition risks arise from changes in government and stakeholder policies, technological advancements, social dynamics, and the evolving objectives of the global economy toward a low-carbon model.

The effectiveness of risk management, particularly in the credit granting process, is expected to support Bank Mega in achieving Sustainable Development Goals (SDGs).

The following outlines a risk management procedure in the credit granting process that takes into account the implementation of sustainable finance and Environmental, Social, and Governance aspects:

Stages of Risk Management Procedures for Sustainable Finance Implementation

Bank Mega has commenced mapping its loan portfolio to assess the impact of climate risks, encompassing both physical and transition risks. Furthermore, Bank Mega is currently developing a Stress Testing methodology specific to climate risks, aiming to evaluate potential losses that could impact the Bank's capital.

Issues on the Implementation of Sustainable Finance [E.5] [FS9]

Bank Mega acknowledges the various challenges associated with implementing sustainable finance, encompassing both internal and external aspects.

• Internal

- » Bank Mega must enhance awareness among all employees to foster a culture of sustainability. This culture is crucial as the foundation for understanding

the necessity of sustainability implementation across all business lines, particularly in credit-related activities.

- » The Bank also needs to establish policies that promote a sustainability culture among employees and ensure that other policies concerning business processes and risk management issued by the Bank align with a culture of sustainability.

- **External**

- » Bank Mega must collaborate with debtors that are playing a significant role in transitioning business activities towards an environmentally friendly economy.
- » Obtaining disclosure from debtors regarding data related to climate risks, such as emissions and ESG-related business activities, is essential. This data is necessary for accurately measuring the credit risk of the debtor.

In response to the challenges, Bank Mega continues to educate all employees and debtors. This effort is undertaken because implementing sustainable finance serves not only

for immediate profit but also as a responsibility to sustain the business long-term by enhancing the efficiency of natural resource usage. Furthermore, the Bank will consistently review its policies to ensure alignment with the culture of sustainability.

Bank Mega will coordinate with debtors to educate and increase awareness, encouraging them to conduct business activities considering ESG factors to mitigate external challenges. Additionally, the bank will ensure that its requirements for climate risk data from debtors can be fulfilled.

Whistleblowing System [2-16] [205-3] [2-26]

Bank Mega has committed to implementing a Whistleblowing System (WBS) to implement Good Corporate Governance. Bank Mega wants to create a clean, safe, and transparent business environment by implementing the WBS system. Bank Mega is expected to encourage awareness among employees and other stakeholders in disclosing violations.

The Crime and Fraud Investigation (CFIN) Work Unit assumes complete responsibility for systematically implementing the Work Breakdown Structure (WBS), providing regular reports on all WBS outcomes to the Board of Directors. Throughout 2023, Bank Mega received and effectively addressed 11 WBS reports, ensuring alignment with pertinent legal and regulatory frameworks. [2-16]

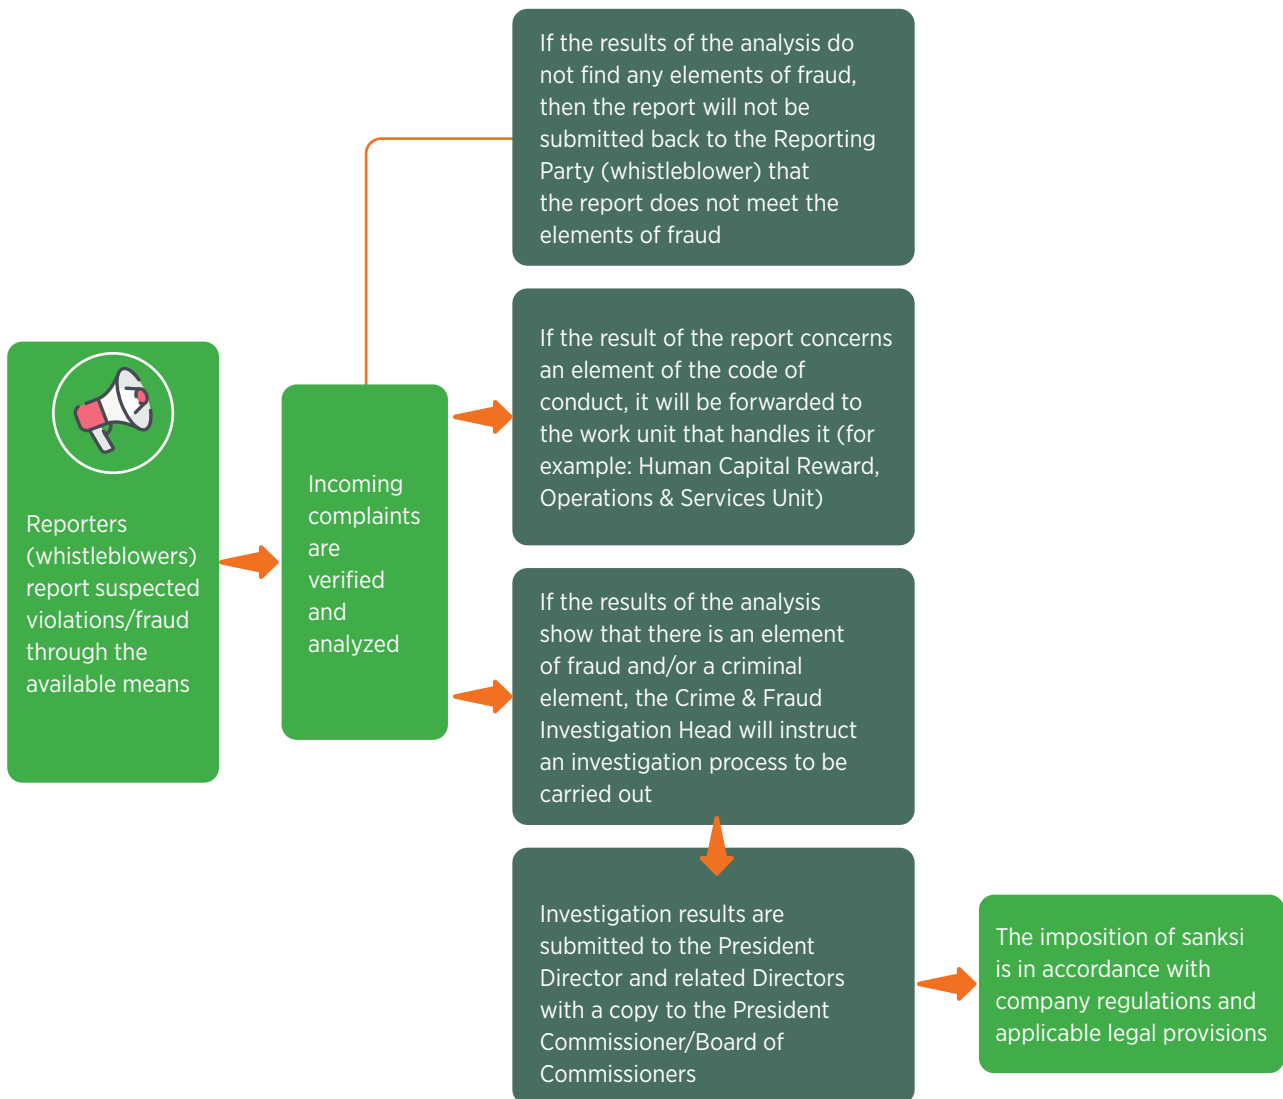

The Whistleblowing System can be accessed through

Corporate Support for Anti-Corruption [205-1] [205-2] [205-3]

The Company enforces zero tolerance towards corruption and the abuse of power for personal gain, aligning with the implementation of SK. No. 084/DIRBM/2022 on the Anti-Fraud Strategy signed by the Board of Directors in 2022. Additionally, the Company conducts periodic anti-fraud training for all employees, covering various topics, including:

- Anti-Fraud Strategy
- General knowledge of Banking Law No. 10/1998
- Whistleblowing System
- Banking crime modus operandi and preventive measures.

Fundamentally, several units, such as the PRFS Unit, tend to have relatively high corruption risks. However, throughout the reporting period, the Company has not received any complaints related to allegations of anti-corruption violations, either involving employees or business partners. Bank Mega has also not faced any public legal cases related to alleged corruption.

Stakeholder Engagement [E.4] [2-29]

Bank Mega consistently engages key stakeholders in all activities and actively endeavors to meet the needs of each stakeholder group. These efforts are guided by thorough mapping, considering the proximity and impact of stakeholders on the Company.

Identification of Material Topics and Sustainability Issues

On December 21st, 2023, Bank Mega identified and mapped material topics relevant to the context of sustainability and contributed to the attainment of Sustainable Development Goals (SDGs). The bank facilitated a discussion led by an independent party serving as an expert team, which delved into business activities' actual and potential impacts, conducting an impact analysis. The outcome of this

discussion identified six material topics aligned with the sustainability context and supportive of SDGs.

There are additional material topics and differences in material topic titles in the 2023 reporting. This difference is because Bank Mega has adjusted important issues during 2023 according to the priorities for disclosing secular topics.

[3-1] [3-2]

Economic Performance 2023

In 2023, Bank Mega succeeded in recording positive performance with a profit after tax of Rp3.51 trillion. This result comes from interest income and fee based income. Apart from that, Bank Mega has disbursed credit amounting to Rp66.29 trillion, decrease 5.69% compared to the previous year of Rp70.29 trillion. Credit provision is dominated by two credit segments: corporate and joint financing.

Bank Mega regularly manages credit quality by assessing debtors' repayment capabilities and conducting thorough analyses. This proactive approach has enabled Bank Mega to sustain stable profits and maintain high credit quality. The bank has also implemented a policy to keep the Loan-to-Deposit Ratio (LDR) within the range of 74.03%, ensuring liquidity is maintained. These diverse efforts are periodically evaluated by the Financial Control Work Unit and submitted to the President Director.

Target	4.46	4.30	3.50
Realization	3.51	4.05	4.01

Note: The target for channeling funds by sustainable finance is to grow 5% from the position in December 2022 Rp24.9 trillion.

Bank Mega recognizes that various factors influence economic performance. It is not just quantifiable elements; climate and social conditions also significantly impact economic resilience. The rising temperature of the Earth's surface has led to shifts in consumption patterns, business activities, and risk management approaches. In 2023, Bank Mega did not incur significant losses due to climate change. Nevertheless, this risk warrants careful observation, especially when analyzing financing risks in industries that negatively impact climate risk. Furthermore, in 2023, Bank Mega received no financial assistance from the Government.

[201-2] [201-4]

Climate Risk Stress Test (CRST) [FS11]

- **Credit Risk**
Bank Mega has meticulously undertaken a climate-related stress test to assess credit risk, encompassing physical and transition risks thoroughly. In the evaluation of material risks, such as floods, droughts, and forest fires, the bank intricately mapped the collateral locations of consumer credit debtors with property-backed assets, alongside pinpointing the business locations of debtors operating in the Agriculture, Forestry, and Fisheries sectors. In the realm of transition risks, Bank Mega conducted mapping for debtors entrenched in industries marked by high emissions, including the Construction sector, Agriculture, Forestry, and Fisheries sector, Energy sector, Mining and Quarrying sector, Transportation and Warehousing sector, and Processing Industry sector.

Furthermore based on the mapping results, Bank Mega will project the anticipated impact of flood risk on debtors' collateral, expecting a subsequent decrease in collateral value. Additionally, the bank will thoroughly assess potential losses from debtors in the Agriculture, Forestry, and Fisheries sectors due to risks such as droughts and forest fires. Furthermore, Bank Mega will delve into detailed projections of debtors' financial conditions in response to transitional risks, such as the assumed imposition of a carbon tax. This assumption involves a significant projected increase in carbon prices, consequently heightening costs that debtors will be compelled to incur.

- **Market Risk**

Bank Mega has conducted a comprehensive risk identification process for calculating carbon emission estimates within Scope 3. The bank systematically mapped transition risks associated with its held securities to specific economic sectors. Furthermore, it established the CRST framework - Market Risk, which includes scenarios (short-term & long-term), time horizon, data requirements (macroeconomic data, counterparty & bond rating), shock stress tests

(increase in interest rate & yield of securities), and the impact of climate risk (decrease in marked-to-market value of securities).

- **Operational Risk**

Bank Mega has identified physical risks from sudden climate changes, such as flood and fire risks. These climate changes pose the potential for detrimental impacts on the bank's assets, including office buildings (both the head office and branch offices), and other potential damages that could result in a loss of value for Bank Mega.

To mitigate these risks, Bank Mega has implemented a measurement strategy involving mapping branch offices, regional offices, data centers, and the head office based on data from the Indonesian Disaster Risk Index (IRBI), which identifies potential disaster-prone areas. Additionally, Bank Mega has calculated possible loss values using historical data available to the bank. Based on the outcomes of this mapping process, Bank Mega is equipped to project potential loss values attributable to the impact of these physical risks. Based on the mapping results, the Bank could project the loss value due to the physical risk impact.

Implementation of Sustainable Finance

Management Approach [3-3]

The implementation of sustainable finance carried out by Bank Mega has directly impacted financial performance. In addition, Bank Mega has considered environmental, social, and governance aspects in business and operational processes. Bank Mega implements sustainable finance based on POJK No. 51/POJK.03/2017 concerning Implementing Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies.

The head of the Sustainable Finance preparation and implementation team is the Strategic & Business Development Work Unit. 15 other Divisions also assist the Sustainable Finance Team. The Director of Compliance & Human Capital monitors team performance.

ESG-Informed Credit Portfolio

As a form of support to the implementation of sustainable finance in Indonesia, Bank Mega has managed its credit portfolio with LST perspective.

ESG-oriented credit portfolio management process flow:

Identify loan portfolio according to Sustainable Business Activity Category (KKUB)

Consider the impact of any actions taken on the environment and society

Conduct periodic measurements according to predetermined targets

Essentially, Bank Mega manages its credit portfolio through a comprehensive approach, drafting policies on credit guidelines and setting a growth target of up to 5% for the sustainable finance credit portfolio over a one-year period. The targets and objectives of managing an LST-oriented credit portfolio are carried out in line with the Government's guidance and the targets of Sustainable Development Goals (SDGs).

Furthermore, Bank Mega prioritizes specific economic sectors for credit financing, including construction and agriculture, hunting, and forestry. This selection is based on sectors showing positive growth potential even in uncertain economic conditions, such as national strategic projects and lending to conglomerate groups with strong financials, particularly companies with solid ratings and financial conditions. Credit financing is extended to eligible debtors, and Bank Mega conducts periodic monitoring and evaluation of each debtor. In the event of a default, an

assessment is carried out to decide on the continuation of credit. This effort aims to encourage debtors and potential debtors to enhance their LST performance and serve as a means to minimize and mitigate the negative impacts of each industry's business activities. [FS3]

Sustainable Financial Performance

Bank Mega has filtrated financing sectors prone to negative environmental impact, including transportation, palm oil, and manufacturing, to promote sustainable finance. The Bank is set to progressively reduce or implement improvement plans over a specified period for sectors with a high risk of environmental damage.

Furthermore, Bank Mega's steadfast commitment to sustainable finance is exemplified through the distribution of KKUB credits. In 2023, the KKUB credit distribution surged to Rp24.9 trillion, marking an impressive increase of 36.4% compared to the Rp18.25 trillion recorded in 2022.

Bank Mega has categorized its financing portfolio to debtors into eight KKUBs. As of the end of the reporting period, the amount of KKUB financing provided by Bank Mega grow to Rp6.7 trillion, with funding for each category as follows:

- Renewable energy category: Rp331 billion
- Energy Efficiency: Rp181 billion
- Sustainable Management of Living Natural Resources and Land Use Rp895 billion
- Green Transportation: Rp104 billion
- Eco-efficient Products (Products that Use Less Resources and Pollute Less): Rp2.1 trillion
- Environmentally Sound Buildings that meet Nationally, Regionally, or Internationally recognized Standards or Certifications: Rp2.4 trillion
- Other Environmentally Sound Business and/or Other Activities: Rp709 billion

Credit Portfolio Mapping of Sustainable Business Activities Category

Bank Mega has organized its credit portfolio according to KKUB guidelines outlined in OJK Regulation No. 51/POJK.03/2017. Regularly, the Bank fosters positive relationships with debtors, engaging in discussions about opportunities and risks linked to ESG aspects. It actively encourages debtors' businesses to be part of KKUB. Bank Mega aspires for each debtor to comprehend, leverage opportunities, and address LST risks effectively, contributing to the development of sustainable business activities. [\[FS5\]](#)

• KKUBs that Support Biological Resources Management and Sustainable Land Use [\[FS10\]](#)

We have 1 debtor that holds the Indonesian Sustainable Palm Oil (ISPO) and/or Roundtable on Sustainable Palm Oil (RSPO) certification. [\[FS10\]](#)

• KKUB that Supports Green Transportation

Loans are extended through collaborative financing arrangements with other banks to support the investment requirements of the Jabodebek LRT project, including facilities and infrastructure.

• KKUBs that Support Business Activities and/or Other Environmentally Sound Activities

Extended to debtors meeting the criteria of sustainable financial businesses focusing on enhancing environmental quality.

• KKUB that Supports Business Activities and/or Other Activities of Micro, Small, and Medium Enterprises (MSMEs) Activities

As an effort to fund the working capital and investment requirements of debtors meeting the criteria of Micro, Small, and Medium Enterprises (MSMEs).

Impact of Sustainable Financial Products and/or Services [F.23] [F.28]

All sustainable financial products and/or services will serve as the foundation for every financial decision. Implementing sustainable financial products and/or services has positive and negative implications for customers. Sustainable financial products and/or services have the potential to enhance global economic competitiveness and can contribute to supporting environmental sustainability, efficiency, and the achievement of sustainable development goals.

Nevertheless, implementing sustainable finance entails the potential for adverse consequences should debtors neglect regulatory adherence, consequently exposing themselves to the risk of penalties or fines. In response, Bank Mega diligently conducts educational initiatives tailored for all customers, ensuring robust regulatory compliance and fostering unwavering support for sustainable environmental conservation.

About the Report

[2-2] [2-3] [2-4] [2-5]

About the Report [2-2] [2-3] [2-4] [2-5]

The PT Bank Mega Tbk Sustainability Report is published to provide information related to the Company's economic, social, environmental, and governance performance, commitment, and accountability to all stakeholders. The 2023 Sustainability Report and Annual Report form a complementary unit. Published annually, the Sustainability Report covers the period from January 1 to December 31, 2023. The 2022 Sustainability Report has already been published on the Company's website at 2nd February 2023. This report is prepared with reference to:

- Financial Services Authority Regulation (POJK) No.51/POJK.03/2017.
- Circular Letter of the Financial Services Authority (SEOJK) No. 16/SEOJK.04/2021.
- Global Reporting Initiative (GRI) 2021 standards, with conformity: 'reference to the GRI Standards', and GRI Financial Services Sector Supplement.

There are changes and restatements for information in this report. The Sustainability Report has not undergone third-party verification, however all financial data is derived from audited financial statements by a public accounting firm (KAP), consolidating information from all Bank Mega working units across Indonesia. Electricity consumption data originates from the head office, and water usage and fuel consumption data encompass the head office and all branches of Bank Mega. The report excludes other entities as Bank Mega does not possess subsidiaries. Every data point and information disclosure has undergone approval and verification by relevant internal parties, including the Head of the Company. [G.1]

Feedback on Last Year's Report [G.3]

Until the end of 2023, the Company garnered feedback to enhance information pertaining to sustainable finance and start identifying debtors in accordance with the sustainable business activities categories (KKUB). Thus, in this report, Bank Mega endeavors to deliver that information more comprehensively.

Determination of Report Content and Quality [3-1]

The Bank Mega 2023 Sustainability Report was prepared based on accuracy, balance, clarity, comparison, completeness, sustainability context, timeliness, and verifiability. The content determination and preparation process were conducted internally and approved by the Compliance & Human Capital Director, who is responsible for all sustainable finance activities.
